Group NBT plc

Chief Operating Officer

Group NBT plc (London:NBT), today announced that Jonathan Robinson, currently Business Development Director has been appointed Chief Operating Officer reporting to Geoff Wicks, Chief Executive Officer, Group NBT plc. In this new role, Jonathan will be responsible for all product management and systems development as well as the technical and fulfilment operations. Jonathan is a co-founder of Group NBT (formerly NetBenefit) plc and as an executive director was previously responsible for the product management and technical teams. Rodger Armstrong and Raj Nagevadia retain their respective executive roles as Sales and Marketing Director and Finance Director, both reporting directly into Geoff Wicks.

Geoff Wicks, CEO of Group NBT commented: "Group NBT has had tremendous success in signing up companies to our NetNames Platinum Service, to the extent that we now count around one third of FTSE 100 companies amongst customers contracted to the service. Dynamic product development underpinned by effective operations and fulfilment provide the vital bedrock for our flagship NetNames Platinum Service. Recognising this through the role of Chief Operating Officer is something we have considered for some time. Jonathan's substantial experience within the company and the industry as a whole make him a natural fit for the role."
